Last Used Date: 20250331

Ordering Information

Hewlett-Packard supplies can be ordered on the Internet, on-line through your printer software, or by calling an authorized reseller. Refer to your printer User Guide for instructions.

Return and Recycling

Please return your genuine HP supplies for recycling to Hewlett-Packard. For more information, please visit us at <http://www.hp.com/go/recycle>

* Approximate only; varies depending on types of documents printed and other factors.

** HP uses the first 20% of cartridge use to estimate pages remaining.

*** Note

A non-HP supply has been installed. If you believe you purchased a genuine HP supply, visit us at <http://www.hp.com/go/anticounterfeit>. Any printer repair required as a result of using non-HP cartridges is not covered under warranty.

Enable HP Web Services

NOTE: HP Web Services requires the printer to be connected to a network.

1. Once the printer is connected to a network, enter the printer's network IP address into a Web browser. To find the printer's IP address, refer to the printer's user guide, or reprint this page after the printer is connected to the network.
2. On the Web page that appears, click on the HP Web Services tab.
3. Review and accept the terms of use, and then click the Enable button.

HP ePrint

Print from Anywhere

HP's free ePrint service provides an easy way to print from e-mail, anywhere and anytime. Simply attach a file to an e-mail, and send it to this printer's e-mail address. The attachment will print automatically on this printer. Supported attachment file types include .pdf, .jpg, .tif, and Microsoft Office(R) documents.

NOTE: Attachments may print differently than they appear in the software program which created them, depending on the original fonts and layout options used.

Your Printer is Protected

To help prevent unauthorized e-mail, HP assigns a random e-mail address to your printer, never publicizes this address, and by default does not respond to any sender. ePrint also provides industry-standard spam filtering and transforms e-mail and attachments to a print-only format to reduce the threat of a virus or other harmful content.

NOTE: The ePrint service does not filter e-mails based on content, so it cannot prevent objectionable or copyrighted material from being printed.

HP ePrintCenter

Use the HP ePrintCenter Web Site

Use HP's free ePrintCenter Web site to set up increased security for ePrint, specify the e-mail addresses that are allowed to send e-mail to your printer, get Print Apps (if available for your product), and access other free services.

- Go to the HP ePrintCenter Web site for more information and specific terms and conditions:
<http://www.hpPrintCenter.com>
